

Conformics Growth Marketing Strategic Proposal

Conformics Growth Marketing Strategic Proposal

—by growth.cx

1. Organic Growth (Demand Gen)

AI-led SEO (Website + Subfolder Strategy)

- Full technical SEO (page speed, indexing, sitemap, schema, crawl fixes).
 - Migrate key product content into **subfolders**, not subdomains.
 - Build **topical authority** for regulatory compliance, chemical management, safety data, ESG, etc.
 - Keyword clusters for all three products.
 - Create **ToFu, MoFu, BoFu** pages.
 - Create **comparison pages, alternative listicles, and solution landing pages** (Conformics vs Competitors).
 - Set up **AEO (Answer Engine Optimization)** to rank in ChatGPT, Gemini, Google AI Overview.
-

Content Marketing

- 12 content pieces/month (blogs, landing page content, whitepapers, industry deep-dives).
 - Case studies & ROI storytelling.
 - Competitor-alternative pages and listicles.
 - Sales enablement content:
 - Brochures
 - One-pagers
 - Product explanation documents
 - Event collateral (print-ready)
-

Social Media (LinkedIn Organic)

- Monthly content calendar.
 - 12 posts per month (mix of product, educational, founder POV, event updates, industry news).
 - Creative design for each post.
 - Competitor analysis on social.
-

2. Account-Based Lead Generation (ABM)

Email Outreach (Cold + Nurturing)

We deliver end-to-end:

- 4 secondary domains

- 12 mailboxes
- Inbox/warmup tools
- Deliverability configuration (SPF, DKIM, DMARC)
- Email sequencing (problem → angle → CTA → soft ask)
- Data scraping + lead enrichment
- Lead scoring + segmentation
- Monthly nurturing sequences

Messaging Style:

- Problem → Insight → Solution
- 2–3 short paragraphs
- No salesy tone
- Use industry-specific issues (chemical safety, SDS, regulatory alerts, audits, risk exposures, ESG obligations)

Expected Output

- **8–12 positive responses/month initially**
 - Expands to **15–25/month** after 90 days (post warm-up + refined messaging)
 - SQL definition aligned to “direct interest”:
 - Demo request
 - Subscription attempt
 - Asking for more info
 - Asking for integration details
 - Responding with clear intent
-

LinkedIn Outreach

- 400 prospecting/month
 - Connector → engager → nurturer flow
 - Targeting all ICP roles:
 - Regulatory Affairs
 - Product Compliance
 - QA/ESG
 - Chemical Managers
 - Operations Directors
 - Sync with email openers (LinkedIn touch → email reply probability ↑ 2–3x)
-

3. UI/UX CONVERSION SUPPORT (Requested by client)

New addition to scope after call.

- Wireframes for key landing pages

- Section-by-section content + UX guidance
- Best practices for CRO:
 - CTA placement
 - Social proof
 - Feature hierarchy
 - Demo-flow optimization
 - Above-the-fold redesign recommendations

Execution will be done by client’s developers.

4. Performance Marketing (Optional, Supporting Layer)

The client does NOT want top-of-funnel ads.
We propose performance marketing **only as a bottom-of-funnel accelerator**:

- Retarget website visitors
- Retarget ABM accounts
- Run ads to people already showing intent
- Promote demos/subscriptions only to warm ICPs

Suggested spend (minimal):

- **₹8,000–₹15,000/week** during testing (optional)
- Start only after Month 2–3 based on ICP insights.

Suggested channels:

- Google (Search + Display)
- LinkedIn

➤ Pricing

Plan A			
Channels	Inclusions	Team	Pricing
Growth-led SEO	● Keyword research ● Competition Analysis ● AI SEO: AEO & GEO for LLM visibility ● On-page SEO ● Technical SEO	● SEO Manager ● SEO Executive	\$750/m
